Greetings

Dear University Presidents of Korea and Japan

Korean Council for University Education (KCUE) and the Korea Foundation (KF) are pleased to jointly host the Korea-Japan University Presidents' Forum in May, a month of beauty and blooming flowers.

The goal of this forum is to foster engaging discussions and strengthen the network among university presidents – sources of soft power – to establish a future-oriented bilateral relationship and promote exchange between future generations. It will also bring together members of the Federation of Korean Industries (FKI) and the Keidanren to engage in macro-level discourses on industry-academia cooperation and fostering young talent from the perspective of industry leaders.

We are pleased to invite you to participate in this meaningful event, where we believe you will provide a valuable contribution to the higher education landscape in Korea and Japan, and offer unique insights into the future with real-world examples. We also look forward to hearing your thoughts on fostering international exchanges in higher education between the two countries during the forum's in-depth discussions, which will place a special focus on youth exchange opportunities.

Your participation will be greatly appreciated and will contribute to vibrant youth exchanges between Korea and Japan, which are expected to lead to a forward-looking relationship that builds on mutual understanding and cooperation.

We look forward to seeing you
at this wonderful occasion.

April 2024

Yours truly,

Park Sang-Gue
Chairman of Korean Council
for University Education
